# Subject Index

- Acute megakaryoblastic leukemia (acute "malignant" myelofibrosis): An unusual cause of osteosclerosis 45
- Aggressive fibromatosis 179
- Aggressive lipomatosis, congenital 248
- Angiography in soft tissue leiomyosarcomas of the extremities, the value of 201
- Arthropathy, shoulder, in primary hyperparathyroidism 98
- Avulsion fractures of the scapula 27
- Axial skeleton, melorheostosis of the, with associated fibrolipomatous lesions 41
- Benign bone lesions, dynamic computed tomography scanning of: Preliminary results 238
- Benign fibrous histiocytoma (case report) 215
- Bilateral stress fractures (and/or reaction) of the distal ends of the radii (case report) 148
- Biomechanics important to interpret radiographs of the hip 185
- Biopsy, bone, radionuclide bone scan as an aid in localizing lesions for 246
- Biopsy, percutaneous needle, of soft tissue tumors guided by ultrasound and computed tomography 33
- Bone involvement pattern in hypervascular lesions 103
- Bowel disease, chronic inflammatory, hypertrophic osteoarthropathy of 109
- Brucella suis*, osteomyelitis of the left femur due to (case report) 208
- Calcific tendinitis of the gluteus maximus tendon (gluteus maximus tendinitis) 198
- Calvaria, hyperostosis of the, in osteogenesis imperfecta (case report) 141
- Camptomic syndrome (case report) 283
- Carpel bones, recurrent giant cell tumor involving (case report) 56
- Carpel scaphoid, osteonecrosis of the distal pole of the, following fracture - a rare complication 189
- Cervical spine, unilateral spondylolysis of the 259
- Child with systemic sarcoidosis, osseous sarcoidosis of left 5<sup>th</sup> digit in a (case report) 205
- Children, a complication of radiotherapy to the shoulder in: Slipped proximal humeral epiphysis 123
- Children, radiological study of two disseminated malignant non-Hodgkin lymphomas affecting only the bones in 83
- Chondromyxoid fibroma of left first rib (case report) 53
- Chronic inflammatory bowel disease, hypertrophic osteoarthropathy of 109
- Coccygeal and sacral supernumerary ribs (pelvic ribs) (case report) 212
- Computed tomography and ultrasound, percutaneous needle biopsy of soft tissue tumors guided by 33
- Computed tomography contribution and radiologic findings: Ewing tumor of rib 227
- Computed tomography correlation, extraskeletal Ewing sarcoma with 234
- Computed tomography, dynamic, scanning of benign bone lesions: Preliminary results 238
- Computed tomography in suspected osteoid osteomas of tubular bones 92
- Computed tomography in the evaluation of 41 cases of Ewing's sarcoma 8
- Computed tomography of intramuscular myxoma 14
- Congenital aggressive lipomatosis 248
- Congenital venous dysplasia of the index finger involving soft tissues and bone (case report) 273
- Coracoid fractures, oblique angled view for 195
- Cryptococcus neoformans*, isolated, osteomyelitis of femur (case report) 263
- Developmental anomaly, an unusual - the "pelvic digit" 118
- Development, radiology of postnatal skeletal. VI. Elbow joint, proximal radius, and ulna 17
- Development, radiology of postnatal skeletal. VII. The scapula 157
- "Digit" pelvic - an unusual developmental anomaly 118
- Dislocation, transscaphoid, transcapitate, perilunate fracture (scaphocapitate syndrome) 192
- Disseminated malignant non-Hodgkin lymphomas affecting only the bones in children, radiological study of 83
- Dynamic computed tomography scanning of benign bone lesions: Preliminary results 238
- Dysplasia, congenital venous, of the index finger involving soft tissues and bone (case report) 273
- Elbow joint, proximal radius, and ulna. Radiology of postnatal skeletal development 17
- Epiphysis, slipped proximal humeral: A complication of radiotherapy to the shoulder in children 123
- Erdheim-Chester disease (case report) 69
- Ewing sarcoma, extraskeletal, with computed tomography correlation 234
- Ewing tumor of rib: Radiologic findings and computed tomography contribution 227
- Ewing's sarcoma, computed tomography in the evaluation of 41 cases of 8
- Extraskeletal Ewing sarcoma with computed tomography correlation 234
- Femur, isolated *Cryptococcus neoformans* osteomyelitis of (case report) 263
- Femur, osteomyelitis of the left, due to *Brucella suis* (case report) 208
- Fibrohistiocytomas of bone, study of three radio-induced malignant 174
- Fibrolipomatous lesions, melorheostosis of the axial skeleton with associated 41
- Fibroma, chondromyxoid, of left first rib (case report) 53
- Fibromatosis, aggressive 179
- Fibrous histiocytoma, benign (case report) 215
- Fibula, giant cell tumor of ossification center of the distal end of, growing into the metaphysis (case report) 218
- Finger, index, congenital venous dysplasia of the, involving soft tissues and bone (case report) 273
- Fracture dislocation, transscaphoid, transcapitate, perilunate (scaphocapitate syndrome) 192
- Fractures, avulsion, of the scapula 27
- Fractures, coracoid, oblique angled view for 195
- Ganglion, intraosseous, of the ileum (case report) 61
- Giant cell tumor of ossification center of the distal end of the fibula, growing into the metaphysis (case report) 218
- Giant cell tumor, recurrent (initially in distal end of radius) involving adjacent carpal bones (triquetrum and pisiform bones) (case report) 56
- Giant cell tumors, multiple (multicentric), of bone (case report) 276
- Gluteus maximus tendon (gluteus maximus tendinitis), calcific tendinitis of the 198
- Gonadal dose reduction in lumbar spine radiography 153

- Gram-negative organisms, myonecrosis of left leg (stimulating gas) due to (*case report*) . . . . . 223
- Hemangioma of tibia, intracortical (*case report*) . . . . . 137
- Hip, biomechanics important to interpret radiographs of the . . . . . 185
- Histiocytoma, benign fibrous (*case report*) . . . . . 215
- Histiocytosis X, a comparison of radiographic and bone scan findings in . . . . . 170
- Hodgkin (non) disseminated malignant lymphomas affecting only the bones in children, radiological study of . . . . . 83
- Humeral epiphysis, slipped proximal: A complication of radiotherapy to the shoulder in children . . . . . 123
- Hypercementosis – an important clue to Paget disease of the maxilla . . . . . 126
- Hyperostosis of the calvaria in osteogenesis imperfecta (*case report*) . . . . . 141
- Hyperoxaluria, primary (oxalosis) (*case report*) . . . . . 266
- Hyperparathyroidism, shoulder arthropathy in primary . . . . . 98
- Hypertrophic osteoarthropathy of chronic inflammatory bowel disease . . . . . 109
- Hypervascular lesions, bone involvement pattern in . . . . . 103
- Idiopathic segmental sclerosis of vertebral bodies . . . . . 88
- Ileum, intraosseous ganglion of the (*case report*) . . . . . 61
- Immature skeleton, the effect on the: Skeletal metastasis . . . . . 73
- Infection, *Petriellidium boydii*, of the knee: A case report . . . . . 114
- Inflammatory chronic bowel disease, hypertrophic osteoarthropathy of . . . . . 109
- Inheritance, recessive, intermediate form of osteopetrosis with . . . . . 47
- Intermediate form of osteopetrosis with recessive inheritance . . . . . 47
- Intracortical hemangioma of tibia (*case report*) . . . . . 137
- Intracortical osteosarcoma: Rare entity or early manifestation of classical osteosarcoma? . . . . . 255
- Intramuscular myxoma, computed tomography of . . . . . 14
- Intraosseous ganglion of the ileum (*case report*) . . . . . 61
- Isolated *Cryptococcus neoformans* osteomyelitis of femur (*case report*) . . . . . 263
- Knee, *Petriellidium boydii* infection of the: A case report . . . . . 114
- Leg, myonecrosis of left, (stimulating gas) due to gram-negative organisms (*case report*) . . . . . 223
- Leiomyosarcomas, soft tissue, of the extremities, the value of angiography . . . . . 201
- Leukemia, acute megakaryoblastic (acute "malignant" myelofibrosis): An unusual cause of osteosclerosis . . . . . 45
- Lipomatosis, congenital aggressive . . . . . 248
- Localizing lesions for bone biopsy, radionuclide bone scan as an aid in . . . . . 246
- Lumbar spine radiography, gonadal dose reduction . . . . . 153
- Lytic osteosarcoma, purely . . . . . 1
- Macroglobulinemia, Waldenström (*case report*) . . . . . 132
- Malignant disseminated non-Hodgkin lymphomas affecting only the bones in children, radiological study of . . . . . 83
- Malignant fibrohistiocytomas of bone, study of three radio-induced . . . . . 174
- ("Malignant" myelofibrosis, acute) acute megakaryoblastic leukemia: An unusual cause of osteosclerosis . . . . . 45
- Marrow necrosis, widespread, during pregnancy . . . . . 37
- Maxilla, an important clue to Paget disease of the – hypercementosis . . . . . 126
- Medulloblastoma, metastatic, to the vertebral bodies of L2 and L3 (*case report*) . . . . . 64
- Megakaryoblastic leukemia, acute (acute "malignant" myelofibrosis): An unusual cause of osteosclerosis . . . . . 45
- Meliorheostosis of the axial skeleton with associated fibrolipomatous lesions . . . . . 41
- Metaphysis, giant cell tumor of ossification center of the distal end of the fibula, growing into the (*case report*) . . . . . 218
- Metastasis, skeletal: The effect on the immature skeleton . . . . . 73
- Metastatic medulloblastoma to the vertebral bodies of L2 and L3 (*case report*) . . . . . 64
- Multiple (multicentric) giant cell tumors of bone (*case report*) . . . . . 276
- (Myelofibrosis, acute "malignant") acute megakaryoblastic leukemia: An unusual cause of osteosclerosis . . . . . 45
- Myonecrosis of left leg (stimulating gas) due to gram-negative organisms (*case report*) . . . . . 223
- Myxoma, intramuscular, computed tomography of . . . . . 14
- Necrosis, widespread marrow, during pregnancy . . . . . 37
- Needle biopsy, percutaneous, of soft tissue tumors guided by ultrasound and computed tomography . . . . . 33
- Oblique angled view for coracoid fractures . . . . . 195
- Oseous sarcoidosis of left 5<sup>th</sup> digit in a young child with systemic sarcoidosis (*case report*) . . . . . 205
- Ossification center of the distal end of the fibula, growing into the metaphysis, giant cell tumor of (*case report*) . . . . . 218
- Osteoarthropathy, hypertrophic, of chronic inflammatory bowel disease . . . . . 109
- Osteogenesis imperfecta, hyperostosis of the calvaria in (*case report*) . . . . . 141
- Osteoid osteomas, suspected, of tubular bones, computed tomography of . . . . . 92
- Osteomas, suspected osteoid, of tubular bones, computed tomography of . . . . . 92
- Osteomyelitis of femur, isolated *Cryptococcus neoformans* (*case report*) . . . . . 263
- Osteomyelitis of the left femur due to *Brucella suis* (*case report*) . . . . . 208
- Osteonecrosis of the distal pole of the carpal scaphoid following fracture – a rare complication . . . . . 189
- Osteopetrosis, intermediate form of, with recessive inheritance . . . . . 47
- Osteosarcoma (high grade) of the upper end of the tibia (*case report*) . . . . . 129
- Osteosarcoma, intracortical: Rare entity or early manifestation of classical osteosarcoma? . . . . . 255
- Osteosarcoma, purely lytic . . . . . 1
- Osteosclerosis, an unusual cause of: Acute megakaryoblastic leukemia (acute "malignant" myelofibrosis) . . . . . 45
- (Oxalosis) primary hyperoxaluria (*case report*) . . . . . 266
- Paget disease of the maxilla, an important clue to – hypercementosis . . . . . 126
- Paget disease of the tibia with soft tissue mass formation (*case report*) . . . . . 145
- "Pelvic digit" – an unusual developmental anomaly . . . . . 118
- (Pelvic ribs) sacral and coccygeal supernumerary ribs (*case report*) . . . . . 212
- Percutaneous needle biopsy of soft tissue tumors guided by ultrasound and computed tomography . . . . . 33
- Perilunate, transscaphoid, transcapitate fracture dislocation (scaphocapitate syndrome) . . . . . 192
- Petriellidium boydii* infection of the knee: A case report . . . . . 114
- Postnatal skeletal development, radiology of. VI. Elbow joint, proximal radius, and ulna . . . . . 17
- Postnatal skeletal development, radiology of. VII. The scapula . . . . . 157
- Pregnancy, widespread marrow necrosis during . . . . . 37
- Primary hyperoxaluria (oxalosis) (*case report*) . . . . . 266
- Purely lytic osteosarcoma . . . . . 1
- Radii, bilateral stress fractures (and/or reaction) of the distal ends of the (*case report*) . . . . . 148
- Radiographic and bone scan findings in histiocytosis X, a comparison . . . . . 170
- Radio-induced malignant fibrohistiocytomas of bone,

- study of three . . . . . 174
- Radiological study of two disseminated malignant non-Hodgkin lymphomas affecting only the bones in children . . . . . 83
- Radiology of postnatal skeletal development. VI. Elbow joint, proximal radius, and ulna . . . . . 17
- Radiology of postnatal skeletal development. VII. The scapula . . . . . 157
- Radionuclide bone scan as an aid in localizing lesions for bone biopsy . . . . . 246
- Radiotherapy to the shoulder in children, a complication of: Slipped proximal humeral epiphysis . . . . . 123
- Radius, proximal, elbow joint, and ulna. Radiology of postnatal skeletal development . . . . . 17
- Radius, recurrent giant cell tumor initially in distal end of (*case report*) . . . . . 56
- Recurrent giant cell tumor (initially in distal end of radius) involving adjacent carpal bones (triquetrum and pisiform bones) (*case report*) . . . . . 56
- Rib, chondromyxoid fibroma of left first (*case report*) . . . . . 53
- Rib, Ewing tumor of: Radiologic findings and computed tomography contribution . . . . . 227
- Ribs, sacral and coccygeal supernumerary (pelvic ribs) (*case report*) . . . . . 212
- Sacral and coccygeal supernumerary ribs (pelvic ribs) (*case report*) . . . . . 212
- Sarcoidosis, osseous, of left 5<sup>th</sup> digit in a young child with systemic sarcoidosis (*case report*) . . . . . 205
- Sarcoma, Ewing's, computed tomography in the evaluation of 41 cases of . . . . . 8
- Sarcoma, extraskeletal Ewing, with computed tomography correlation . . . . . 234
- Scan, radionuclide bone, as an aid in localizing lesions for bone biopsy . . . . . 246
- (Scaphocapitate syndrome) transscaphoid, transcapitate, perilunate fracture dislocation . . . . . 192
- Scapula, avulsion fractures of the . . . . . 27
- Scapula. Radiology of postnatal skeletal development . . . . . 157
- Sclerosis, idiopathic segmental of vertebral bodies . . . . . 88
- Segmental idiopathic sclerosis of vertebral bodies . . . . . 88
- Shoulder arthropathy in primary hyperparathyroidism . . . . . 98
- Shoulder in children, a complication of radiotherapy to the: Slipped proximal humeral epiphysis . . . . . 123
- Skeletal metastasis: The effect on the immature skeleton . . . . . 73
- Slipped proximal humeral epiphysis: A complication of radiotherapy to the shoulder in children . . . . . 123
- Soft tissues and bone, congenital venous dysplasia of the index finger involving (*case report*) . . . . . 273
- Soft tissue leiomyosarcomas of the extremities, the value of angiography in . . . . . 201
- Spine, cervical, unilateral spondylolysis of the . . . . . 259
- Spine, lumbar radiography, gonadal dose reduction, in Spondylolysis, unilateral, of the cervical spine . . . . . 259
- Stress fractures, bilateral, (and/or reaction) of the distal ends of the radii (*case report*) . . . . . 148
- Supernumerary ribs, sacral and coccygeal (pelvic ribs) (*case report*) . . . . . 212
- Tendinitis, calcific, of the gluteus maximus tendon (gluteus maximus tendinitis) . . . . . 198
- Tendon, gluteus maximus (gluteus maximus tendinitis), calcific tendinitis of the . . . . . 198
- Tibia, intracortical hemangioma of (*case report*) . . . . . 137
- Tibia, osteosarcoma (high grade) of the upper end of the (*case report*) . . . . . 129
- Tibia, Paget disease of the, with soft tissue mass formation (*case report*) . . . . . 145
- Tomography, computed, and ultrasound, percutaneous needle biopsy of soft tissue tumors guided by . . . . . 33
- Tomography, computed, contribution and radiologic findings: Ewing tumor of rib . . . . . 227
- Tomography, computed, correlation, extraskeletal Ewing sarcoma with . . . . . 234
- Tomography, computed, in suspected osteoid osteomas of tubular bones . . . . . 92
- Tomography, computed, in the evaluation of 41 cases of Ewing's sarcoma . . . . . 8
- Tomography, computed, of intramuscular myxoma . . . . . 14
- Tomography, dynamic computed, scanning of benign bone lesions: Preliminary results . . . . . 238
- Transscaphoid, transcapitate, perilunate fracture dislocation (scaphocapitate syndrome) . . . . . 192
- Transcapitate, transscaphoid, perilunate fracture dislocation (scaphocapitate syndrome) . . . . . 192
- Tubular bones, computed tomography in suspected osteoid osteomas of . . . . . 92
- Tumor, Ewing of rib: Radiologic findings and computed tomography contribution . . . . . 227
- Tumor, giant cell, of ossification center of the distal end of the fibula, growing into the metaphysis (*case report*) . . . . . 218
- Tumor, recurrent giant cell (initially in distal end of radius) involving adjacent carpal bones (triquetrum and pisiform bones) (*case report*) . . . . . 56
- Tumors of bone, multiple (multicentric) giant cell (*case report*) . . . . . 276
- Tumors, soft tissue, percutaneous needle biopsy of, guided by ultrasound and computed tomography . . . . . 33
- Ulna, elbow joint, proximal radius. Radiology of postnatal skeletal development . . . . . 17
- Ultrasound and computed tomography, percutaneous needle biopsy of soft tissue tumors guided by . . . . . 33
- Unilateral spondylolysis of the cervical spine . . . . . 259
- Venous dysplasia, congenital, of the index finger involving soft tissues and bone (*case report*) . . . . . 273
- Vertebral bodies, idiopathic segmental sclerosis of . . . . . 88
- Vertebral bodies of L2 and L3, metastatic medulloblastoma to the (*case report*) . . . . . 64
- Waldenström macroglobulinemia (*case report*) . . . . . 132
- Widespread marrow necrosis during pregnancy . . . . . 37
